Nitric acid: 3% w/w	Sulfuric acid: 15% w/w

*Where % are stated, all concentrations at this level and above are included. Mixtures are also applicable, where the % is at or greater than the level quoted.

In relation to the supply of these materials, Multicrete is required to verify that customers are legitimate professional/business users. The following information must be recorded and retained.

Company Name	
Company Address	
Company registration number	
VAT number (if applicable)	
Nature of trade/business/profession	
Individual making the purchase/authorization on behalf of the company	
Photographic i.d # (e.g. passport, driving licence, trade identification card, business i.d card)	

NAME		POSITION	
SIGNED		DATE	

(The requirement is to verify business and professional users before every purchase, although where regulated substances are supplied frequently to the same customer, verification can be made once and reused. However, verification must occur every 18 months)

Please be aware that the purchaser may have duties in relation to regulated and reportable substances. Further information is available at:
