\*1 Only once a week.

\*2 Always spray with lights out.

\*3 Dissolve Silica Power always first in your tank before adding the rest of your nutrients.

\*4 Never use Frooting Power in combinatie with an other booster. Fill your watertank. Make sure that your basic nutrient solution has an EC of 1,2 before adding Frooting Power.

\*5 Use Calmag to enrich water that is poor of calcium and magnesium or as supplement to a normal nutrition.

**FEED CHART HYDRO/COCO**

This Feed Chart is just a guide. Naturally it is possible to deviate.  
Important: We advise u to use a pH and/or EC meter. Use equal quantities of A and B!
