GroSilic	0.3 mL	0.5 mL	1 mL	1 mL	1 mL	1 mL	1.2 mL	1.2 mL	0.5 mL	0.5 mL	-	-

*Monster Bloom volume measures:
0.4 g/gal = 1/3 tsp per 5 gallons
0.8 g/gal = 2/3 tsp per 5 gallons

TIPS + TRICKS:

- #1: To get the most from a living soil, amend your growing media with:
Synergy - 0.2 oz. per 5 gal of media
Biofuse - 0.25 oz. per gal of media
Black Pearl - 8 TBSP per gal of media
- #2: Pro-Silicate and GroSilic are effective for increasing pH. If adding after other fertilizers be sure to pre-dilute in water to avoid fallout.
- #3: Feed your plants once a week, allowing for 10% - 15% run-off.
