

# DIVERGE E5

GBP,299.00

GLOSS DUNE WHITE/ASHEN

GLOSS SPICE/GUNMETAL

SATIN CAST BLUE METALLIC/SEA FOAM

Whether your goal is to escape on gravel back roads, far from cars and crowds, to the start line at your first gravel race, or simply get the most versatile bike on the road or dirt, no bike is better than the new Diverge. It's quite simply the fastest, most capable - and just maybe the most fun - alloy bike we've ever made, delivering a ride that's quick and lively, but stable and confidence inspiring when the terrain gets rough. With all-new gravel geometry and category leading tire clearance, the new Diverge represents everything we've learned over more than 40 years of riding road, gravel and dirt. The Diverge writes an entirely new chapter in the gravel bike category, so you can dream up entirely new rides. It's the ultimate getaway vehicle.

- Our Premium E5 Aluminum frame provides a stiff, light, and durable platform. When mated to our full carbon FACT fork, the Diverge E5 becomes a light, lively and versatile bike ready to attack any surface.
- We tossed gravel geometry status quo out the window. The new Diverge has the most progressive geometry we've ever created for a drop bar bike, giving riders a capable and stable bike in the dirt that still feels responsive and nimble on the road. We've increased the frame's reach, introduced a slacker head tube and a longer offset fork. All this creates incredible confidence with a planted feeling in the dirt while spec'ing shorter stems keeps the overall cockpit length the same and the steering lively. We've kept the bike's BB low to increase stability but high enough to utilize with 650b wheels if that's your jam.
- We've given the Diverge plenty of rack mounts, including fork and top tube mounts, to ensure you can take what you need, no matter how far you plan to go, or how long you plan to stay out.
- Nothing unlocks a bike's capability like tire clearance, so we gave the new Diverge a whopping 47mm of tire clearance with a 700c wheel and 2.1" with a 650b wheel.

## SPECS

### Specifications subject to change without notice.

FRAME	Specialized Diverge E5 Premium Aluminum, threaded BB, internal routing, 12x142mm thru-axle, flat-mount disc
FORK	FACT carbon, full carbon steerer, 12x100 mm thru-axle, flat-mount disc
HANDLEBARS	Specialized Shallow Drop, 6061, 70x125mm, 31.8mm clamp
STEM	3D-forged alloy, 31.8mm, 7-degree rise
TAPE	Supacaz Suave
SADDLE	Body Geometry Bridge Saddle, steel rails
SEATPOST	Alloy, 2-bolt Clamp, 12mm offset, 27.2mm, anti-corrosion hardware
SEAT BINDER	Alloy, 30.8mm
FRONT BRAKE	Shimano CUES Hydraulic Brake
REAR BRAKE	Shimano CUES Hydraulic Brake
CHAIN	KMC XGlide
CRANKSET	Shimano CUES FC-U6030, 46/32T
BOTTOM BRACKET	Shimano Threaded BSA BB
FRONT DERAILLEUR	Shimano CUES FD-U6030, Braze-on
REAR DERAILLEUR	Shimano CUES RD-U6020, 10sp
SHIFT LEVERS	Shimano CUES ST-U6030
CASSETTE	Shimano CUES, 11-39T, 10sp
FRONT WHEEL	AXIS Sport Disc
REAR WHEEL	AXIS Sport Disc
INNER TUBES	700x28/38mm, 48mm Presta valve
