

ROUBAIX SL8 COMP

GBP,599.00

Gloss Glacial Metallic/White

Satin Solidity Metallic/Obsidian Metallic Fade/Smoke

We created the endurance road category two decades ago proving that high ergonomics means high performance. Today, the new Roubaix SL8 with Future Shock 3.0 is lighter, faster, and smoother than any road bike ever made, unleashing unmatched confidence. The road may be hell below, but on Roubaix, it's always heaven above.

- **COMPLIANCE:** Future Shock 3.0 is the star of the show, more tunable, adjustable, and durable than ever. Now, regardless of position on the bike, every rider experiences 20mm of smooth, stiction-free travel between the stem and head tube. Future Shock helps keep your hands and bars steady for a smoother ride with more control to stay fast, safe, and confident.
- Our dropped clamp design exposes more seatpost to increase deflection, but "more" isn't simply better. The Pavé seatpost controls that deflection for the optimal vertical compliance. Together they create AfterShock technology, and when paired with the Roubaix's rigid rear triangle, deliver a smooth ride with no loss in efficiency.
- The Roubaix SL8 is the smoothest road bike our Ride Science Team has ever tested - reducing impacts at the bars and saddle by 53% vs. the nearest competition. With Roubaix's Future Shock 3.0 the wheel quickly moves over the bump, while rider mass remains stable, maintaining momentum in rough terrain. Typical forks deflect backward on impact, causing a measurable loss in speed. It's a scientific fact, smoother is indeed faster.
- **CAPABILITY:** The Roubaix pioneered endurance geometry, so you ride "IN" the bike, not "ON" the bike to relieve pressure on your hands, arms, and shoulders for capability and confidence on any road, yet it's ready to dissect a mountain descent at full gas. Snuggle up.
- With tire clearance up to 40mm, this endurance road machine delivers better traction than ever on rough roads and even light gravel. Thanks to lightweight, super-efficient Specialized tires, that extra tire volume and traction comes with no downsides.
- Roubaix inspires really BIG days on the bike, so we've given it every mount your adventures could need - three bottle mounts, top-tube mounts, and it's even fender-ready. So, go ahead and bring it all along for the ride.
- **PERFORMANCE:** The new Roubaix SL8 is our most aero yet, with new aero shapes from our Free Foil library and dropped seat stays. At just 950 grams, the frame is lighter, utilizing lessons learned from the Aethos - the world's lightest production frame - and Fact 10r carbon blend. Nothing in its class is faster or lighter than the Roubaix.

SPECS	Specifications subject to change without notice.
FRAME	
FORK	Future Shock 3.2 w/ Smooth Boot, FACT Carbon 12x100mm, thru-axle, flat-mount disc
HANDLEBARS	Specialized Hover Comp, Alloy, 125mm Drop, 75mm Reach w/Di2 Hole
STEM	Future Stem, Comp
GRIPS	Supacaz Super Sticky Kush
SADDLE	Body Geometry Power Sport, steel rails
SEATPOST	S-Works Pavé
SEAT BINDER	Hidden drop clamp
FRONT BRAKE	Shimano 105, Hydraulic disc, 160mm
REAR BRAKE	Shimano 105, Hydraulic disc, 160mm
CHAIN	Shimano SLX, M7100, 12-speed
CRANKSET	Shimano 105, 12-speed, 50/34T
BOTTOM BRACKET	Shimano Threaded BSA BB
FRONT DERAILLEUR	Shimano 105 Di2 R7150, braze-on
REAR DERAILLEUR	Shimano 105 Di2 R7150
SHIFT LEVERS	Shimano 105 Di2 R7170, 12-speed
CASSETTE	Shimano 105 12-speed 11-36
FRONT WHEEL	DT Swiss G540 rim, 24mm internal width, tubeless ready, 24h, Specialized full sealed bearing thru axle hub, centerlock disc, DT Swiss Champion 14G stainless steel spokes, DT Swiss brass nipples
REAR WHEEL	DT Swiss G540 rim, 24mm internal width, tubeless ready, 24h, Specialized full sealed bearing thru axle hub, centerlock disc, DT Swiss Champion 14G stainless steel spokes, DT Swiss brass nipples
INNER TUBES	700x28/38mm, 48mm Presta valve
